

Working with WildHoney

Stilt Requirements

WildHoney stilt performers are easy to work with and adaptable to a great range of environments. We walk comfortably in crowds, indoors and out, can squeeze through doorways, navigate a wide range of surfaces and tough it out in most weather.

Stilt Up

WildHoney works with tall stilts and we often get asked how we get up and down. A trestle table will do the trick.

Height

Each of the WildHoney characters measurements are as follows :

Greenwoman 2.5 metres, The Giants 3.2 metres, The Keeper 2.7 metres, The Chimera 4.5metres,

The Illuminates 3.2 metres, The WildBlooms 2.6 metres, The Elementals 2.5 metres

Please take this into account when booking and check the height of your ceiling, decor and other areas where rigging is hung..

Performance Area

When presenting WildHoney mobile acts, the stilt performers need enough room to move comfortably between people and a large flat, dry area to walk in. If performing at night, please ensure there is an adequately lit pathway to and from the performance area.

Safety

A Spotter must be present at all times. This entails the safety of the stilt performers and the public during the performance. A safe distance between the performers and the public must be maintained at all times unless the performers choose to interact directly with select audience members.

Surface Requirements

The WildHoney stilt performers cannot perform on wet, slippery, muddy, or deep sandy surfaces, and any sign of liquid on a glossy surface is extremely hazardous to stilt walkers.

Steps

WildHoney stilt performers cannot walk up or down long flights of steps. Please make sure the pathway between backstage and dressing rooms does not involve steps, and can be avoided in the performance area.

Dressing Room Requirements

Male/female dressing rooms must be supplied as close to the performance area as possible. While the rooms do not have to be high, they must be private; have access to power, lighting, drinking water, trestle tables, chairs, bin, heater/cooling if available, costume hanging rack, and close access to toilet facilities.

Rider to be negotiated.

Weather Alerts

WildHoney stilt performers cannot perform in rain, extreme heat (34 degrees +), or gale-force winds.

*Please note the Chimera puppet cannot go out in winds over 25kph due to the size of the costume.

WildHoney will be at the event (unless cancelled) and wait to be rescheduled (by negotiation) on the day of performance. If there is no possibility of performance (and those appearances are cancelled) WildHoney will invoice for 100% of the total fee.
