Working With WildHoney - Mobile Acts Information

Non Verbal Street Theatre

WildHoney does not use spoken word but speak gibberish when the mood takes them. Movement and visual stimuli is a key technique of storytelling and communication making it accessible and super friendly to all walks of life.

Relaxed performances

WildHoney offers specially adapted performances for adults and children, who might benefit from a more relaxed experience, i.e. low stimulus, non-verbal. This type of performance specifically appeals to people with autism, communication disorders, learning difficulties, and dementia.

Audio and Live Sound

WildHoney mobile performances generally operate without sound however a pre-recorded soundtrack can be presented on request.

Stage Lighting

The costumes are designed with inbuilt lights for outdoor street performances and therefore don't require external lighting but can enhance the visual if available.

WildHoney mobile acts are performed as 20-minute sets - this is flexible and can be tailored and repeated throughout the event. The performers take a break for a minimum of 20 minutes between sets.

Working With WildHoney - Mobile Act Stilt Requirements

Stilt Requirements

WildHoney stilt performers are easy to work with and adaptable to a great range of environments. We walk comfortably in crowds, indoors and out, can squeeze through doorways, navigate a wide range of surfaces and tough it out in most weather.

Stilt Up

WildHoney works with tall stilts, and we often get asked how we get up and down. A trestle table will do the trick.

Height

Each of the WildHoney characters measurements is as follows: The Green Woman 2.5 metres, The Giants 3.2 metres, The Keeper 2.7 metres, The Chimera 4.5metres, The Illuminates 3.2 metres, Wild Blooms 2.6 metres, The Elementals 2.5 metres, Winter Queen 3 metres. Please take this into account when booking and check the height of outdoor environments ceiling, decor and other areas where rigging is hung.

Performance Area

When presenting WildHoney mobile acts, the stilt performers need enough room to move comfortably between people and a large flat, dry area to walk in. If performing at night, please ensure there is an adequately lit pathway to and from the performance area.

Safety

A Spotter must be present at all times. This entails the safety of the stilt performers and the public during the performance. A safe distance (approx. 3 metres) between the performers and the public must be maintained at all times unless the performers choose to interact directly with select audience members.

Surface Requirements

The WildHoney stilt performers cannot perform on wet, slippery, muddy or deep sandy surfaces, and any sign of liquid on a glossy surface is extremely hazardous.

Steps

WildHoney stilt performers cannot walk up or down long flights of steps. Please make sure that the pathway between backstage and dressing rooms does not involve steps and can be avoided in the performance area.

Dressing Rooms

Male/female dressing rooms must be supplied as close to the performance area as possible. Whilst the rooms do not have to be high, they must be private, have access to power, lighting, drinking water, trestle tables, chairs, bin, heater/cooling if available, costume hanging rack, and close access to toilet facilities.

To be negotiated

Weather Alerts

The WildHoney stilt performers cannot perform in rain, extreme heat (34 degrees +) or gale force winds. WildHoney will be at the event (unless cancelled) and wait to be rescheduled (by negotiation) on the day of performance. If there is no possibility of performance (and those appearances are cancelled) WildHoney will invoice for 100% of the total fee.

Performance Biography

Winter Queen, originally known as the Merwitch, was first introduced as a character in WinterWild's DogWatch performance "Redemption/Immolation" in 2019.

Merwitch then returned to the ocean and shapeshifted into her twin sister the Winter Queen, a re-imagined solo act, enchanting audiences with new props and magical offerings.
